

• INDEX •

Index for Volume 3 1991

Authors

- Banks RE, Evans SW and Whicher JT, Polypeptide regulatory factors in pregnancy, 22
 Baumann R and Magos AL, Management of gynaecological emergencies by operative laparoscopy, 46
 Booker M, Premature ovarian failure, 115
 Brameld JM and Broughton Pipkin F, The renin-angiotensin system of the ovary, 85
 Broughton Pipkin F *see* Brameld JM, 85
 Browning J and Whittaker J, Staging of cancer of the cervix, 172
 Cullimore J and Rollason TP, Cervical intraepithelial glandular neoplasia, 100
 Davies MC, Pregnancy without ovaries, 119
 Dornan JC and Sim D, Biophysical assessment of the fetus, 133
 Duncan SLB *see* Hutchesson ACJ, 184
 Evans SW *see* Banks RE, 22
 Greenough A, Effects of assisted fertilization on neonatal units, 205
 Greer IA, The physiological control of parturition, 209
 Hill NCW, Clinical applications of the antiprogesterone steroid mifepristone (RU 38 486), 93
 Hofmeyr GJ, Vacuum extraction, 158
 Hutchesson ACJ and Duncan SLB, Use of receiver operator characteristic curves in the assessment of obstetric investigations: hypocalciuria and pre-eclampsia, 184
 Jacobs IJ, Clinical application of CA 125, 30
 James D, Limitations of fetal biophysical assessment, 69
 Johnson N, Development and potential of fetal pulse oximetry, 193
 Joyson DHM, Screening for toxoplasmosis in pregnancy, 61
 Louw JP *see* Norman K, 148
 MacDonald J, Relative roles of the midwife, general practitioner and obstetrician in the care of pregnant women in the next decade, 201
 Magos AL *see* Baumann R, 46
 McParland P *see* Pearce JM, 4
 Metcalf KS *see* Wells M, 79
 Murrills A *see* Wheeler T, 13
 Nicolini U *see* Welch R, 189
 Norman K and Louw JP, C-Reactive protein in premature rupture of membranes, 148
 Oram D *see* Prys Davies A, 41
 Pearce JM and McParland P, Predictive role of Doppler waveforms; the uteroplacental circulation, 4
 Penketh R, Pitfalls of fetal chromosome analysis in the first trimester of pregnancy, 126
 Pillai M, Behaviour studies of the human fetus, 139
 Prys Davies A and Oram D, Genetics and gynaecological cancers, 41
 Ramsey I, Fetal and neonatal hyperthyroidism, 74
 Rollason TP *see* Cullimore J, 100
 Sim D *see* Dornan JC, 133
 Sivanesaratnam V, Current strategies in the surgical management of early invasive carcinoma of the cervix, 178
 Stewart P, Influence of posture in labour, 152
 Welch R and Nicolini U, Biochemical assessment of the fetus, 189
 Wells M and Metcalf KS, The ovarian stroma, 79
 Wheeler T and Murrills A, Predictive role of Doppler waveforms: the umbilical artery, 13
 Whicher JT *see* Banks RE, 22
 Whittaker J *see* Browning J, 172

Subjects

- adenocarcinoma
 - cervical neoplasia, CIGN, 100
- assessment
 - receiver operator characteristic curves, 184
- behaviour studies
 - fetus, 139
- biochemical assessment
 - fetal condition, 189
- biophysical assessment
 - fetal condition, limitations, 69
 - fetal condition, 133
- Book Reviews, 56, 112, 168
- C-reactive protein
 - premature membrane rupture, 148
- CA125 measurement
 - clinical applications, cancer, 30
- cancer
 - clinical applications, CA 125 measurement, 30
 - genetics, hereditary cancer syndrome, 41
- cervical cancer
 - staging, 172
 - management, surgery, 178
- cervical neoplasia
 - adenocarcinoma, CIGN, 100
- CIGN
 - cervical neoplasia, adenocarcinoma, 100
- Charivari
 - 54, 110, 166, 220
- clinical applications
 - CA 125 measurement, cancer, 30
 - RU486, mifepristone, 93
- conception
 - ovarian failure, 119
- development
 - fetal pulse oximetry, 193
- Doppler waveforms
 - predictive role, uteroplacental circulation, 4
 - predictive role, umbilical artery, 13
- Editorial
 - 3, 59, 114, 171
- emergencies
 - management, laparoscopy, 46
- fertilization, assisted
 - neonatal units, 205
- fetal
 - neonatal, hyperthyroidism, 74
- fetal chromosome analysis
 - prenatal diagnosis, 126
- fetal condition
 - biophysical assessment, limitations, 69
 - biophysical assessment, 133
 - biochemical assessment, 189
- fetal pulse oximetry
 - development, 193
- fetus
 - behaviour studies, 139
- general practitioner
 - midwife, obstetrician, 201
- genetics
 - cancer, hereditary cancer syndrome, 41
- hereditary cancer syndrome
 - genetics, cancer, 41
- hyperthyroidism
 - fetal, neonatal, 74
- labour
 - posture, 152
- laparoscopy
 - management, emergencies, 46
- limitations
 - biophysical assessment, fetal condition, 69
- LOGIC
 - 51, 107, 163, 219
- management
 - emergencies, laparoscopy, 46
 - cervical cancer, surgery, 178
- midwife
 - general practitioner, obstetrician, 201
- mifepristone
 - clinical applications, RU486, 93
- neonatal
 - fetal, hyperthyroidism, 74
- neonatal units
 - fertilization, assisted, 205
- obstetrician
 - midwife, general practitioner, 201
- ovarian failure
 - premature, 115
 - conception, 119
- ovary
 - stroma, 79
 - renin-angiotensin system, 85
- parturition
 - physiological control, 209
- physiological control
 - parturition, 209
- polypeptides
 - pregnancy, 22
- posture
 - labour, 152
- predictive role
 - Doppler waveforms, uteroplacental circulation, 4
 - Doppler waveforms, umbilical artery, 13
- pregnancy
 - polypeptides, 22
 - screening, toxoplasmosis, 61
- premature
 - ovarian failure, 115
- premature membrane rupture
 - C-reactive protein, 148
- prenatal diagnosis
 - fetal chromosome analysis, 126
- RU486
 - clinical applications, mifepristone, 93
- receiver operator characteristic curves
 - assessment, 184
- renin-angiotensin system
 - ovary, 85
- screening
 - toxoplasmosis, pregnancy, 61
- staging
 - cervical cancer, 172
- stroma
 - ovary, 79
- surgery
 - management, cervical cancer, 178
- toxoplasmosis
 - screening, pregnancy, 61
- umbilical artery
 - predictive role, Doppler waveforms, 13
- uteroplacental circulation
 - predictive role, Doppler waveforms, 4
- vacuum extraction, 158
